

MODON 17.03.2025

1. Create the AUTHORS table with the following structure. The primary key for this table is id_authors:

Column	Data Type
id_authors	number(6)
first_name	Varchar2(40)
last_name	Varchar2(40)
address	Varchar2(50)
url	Varchar2(50)

2. Create the PUBLISHERS table with the following structure. The primary key for this table is publisher_id:

Column	Data Type
publisher_id	number(6)
name	Varchar2(40)
address	Varchar2(50)
phone	number(13)
url	Varchar2(40)

3. Create the BOOKS table with the following structure. The primary key for this table is isbn.

Column	Data Type
title	varchar2
isbn	number(20)
year	number(4)
price	number(8,2)
id_authors	number(6)
publisher_id	number(6)
code_w	number(4)

4. Insert rows into the tables created based on the following tables:

AUTHORS

ID_AUTHORS	FIRST_NAME	LAST_NAME	ADDRESS	URL
2289	KEN	FOLLETT	Cardiff, 56	https://ken-follett.com/
1357	CASSANDRA	CLARE	London, 123	https://www.cassandraclare.com/
2356	PAULA	HAWKINS	London,345	http://paulahawkinsbooks.com/

PUBLISHERS

PUBLISHER_ID	NAME	ADDRESS	PHONE	URL
3489015	CAMBRIDGE UNIVERSITY PRESS	Cambridge CB2 8BS United Kingdom	1223358331	https://www.cambridge.org/core/login
3489015	HACHETTE	59893 Lille Cedex, 9	0160396514	https://www.hachette-collections.com/fr-fr/
2561789	HUEBER	D-80973 München	49 89 9602	https://www.hueber.de/

BOOKS

TITLE	ISBN	YEAR	PRICE	ID_AUTHORS	PUBLISHER_ID	CODE_W
THE GIRL ON THE TRAIN	23890001	2010	31,00	2356	2561789	720
SWORD CATCHER	56783975	2018	45,00	1357	3489015	730
INTO THE WATER	25677890	2012	28,70	2356	3489015	730
CHAIN OF IRON	34165789	2019	25,90	1357	2561789	720
NEVER	45673219	2021	60,89	2289	3489015	730
THE REUNION	34512347	2015	35,28	2356	3489015	720

- Display all the informations about the book "The girl on the train".
- Display all books written by Paula Hawkins.
- Display all books published after 2018.
- Create a join between the tables **BOOKS** and **AUTHORS** and display the first_name, last_name from authors and the title and ISBN from books.
- Create a join between the tables **BOOKS** and **AUTHORS** using id_authors and display the first_name, last_name from authors and the title and ISBN from books.
- Display all information about the books having price > 30.
- Increase the price for all the books available in the warehouse having code =720, by 10 %. Create a new column "New_Price".
