

EXDON 02.12.2024

A. Create the **EMPL** table with the following structure:

Column	Data Type
employee_id	NUMBER(4)
first_name	CHAR (40)
last_name	CHAR (40)
email	CHAR(40)
department_id	NUMBER(4)
hire_date	DATE
job_id	CHAR(30)
salary	NUMBER(10,2)
bonus	NUMBER(6,2)

B. Insert rows into the tables created based on the following tables:

employee_id	first_name	last_name	email	department_id	hire_date	job_id	salary	bonus
100	Steven	King	sking	90	17-Jun-1987	AD_PRES	24385.56	234.67
101	Neena	Kochhar	nkochhar	80	21-Sep-1989	AD_VP	17349.75	12.89
102	Lex	De Haan	ldehaan	80	13-Jan-1993	AD_VP	17373.15	101.23
103	Jennifer	Whalen	jwhalen	50	17-Sep-1987	AD_PRES	4487.65	76.99
104	Shelley	Higgins	shiggins	50	07-Jun-1996	AD_PRES	12113.00	28.34
105	William	Gietz	wgietz	50	07-Jun-1995	AD_PRES	8300.52	15.00
106	Eleni	Zlotkey	ezlotkey	100	29-Jan-2000	SA_MAN	10567.20	26.00
107	Ellen	Abel	eabel	60	11-May-1996	SA_REP	11000.24	75.28
108	Jonathon	Taylor	jtaylor	60	24-Mar-1998	SA_REP	8673.89	62.83

C. For all the following questions use the table **EMPL**:

1. Display all the information about the employees.
2. Display the last_name and the first_name for employees having job_id=sa_rep
3. Display the last_name and the first_name in uppercase in a new column "Name" for employees having job_id=ad_vp.
4. Increase the salary of employees by 5% and display the last_name, the first_name the salary, and the new salary.
5. Increase the salary of employees by bonus and display all the information.
6. Decrease the salary of employees by 7% and display the last_name, the first_name the salary, and the new salary. Use an alias(new_salary) to display the new salary.
7. Display all the information about the employees having job_id "AD_PRES" and the salary<15000.
8. Display all the information for employees having job_id=AD_PRES and arrange in descending order according to salary.
9. Display the first_name and the last_name in uppercase in a new column „New“, and the department_id for employees having department_id=50 or 80(two methods).

10. Display the last names of all employees who have "o" or "a" in their last names.
11. Display all employees whose last names start with "K" or „Z". Arrange in order according to salary.
12. Display all the information about the employees hired after 1st January 1994.
13. Display the first_name, the last_name, the dept_id and the salary for employees having bonus. Arrange in order according to salary.
14. Increase the salary of employees having job_id "AD_PRES" or AD_VP by 5% and display first_name, last_name, salary and the new salary using an alias.
15. Decrease the salary of employees by 5% and display first_name, last_name, salary and the new salary for employees having department_id=50 or 60.
16. Display all the information about the employees having salary between 10000 and 15000.
17. Display the email in uppercase and the job_id with small letters in a new column „New".
18. Arrange in order according to salary and display first_name, last_name, salary.
19. Display the first character of the first name concatenated to the last_name and the job_id for employees hired after 1st January 1998
20. Increase the bonus for employees hired after 01.01.95 by 10%.
