

EXDON – 29.11.2024

1. Exercise A: Explain each of the following functions and give an example for each of them:

- Case – Manipulation: **LOWER, UPPER, INITCAP**
- Character – Manipulation: **CONCAT, SUBSTR, LENGTH, INSTR, LPAD/RPAD, TRIM, REPLACE**

2. Exercise B: Answer the following SELECT:

1. Select trim (leading 'a' from 'ABCABCA') from dual
2. Select trim (trailing 'a' from 'ABCABCA') from dual
3. Select trim (leading 'A' from 'ABCABCA') from dual
4. Select trim (trailing 'A' from 'ABCABCA') from dual
5. Select trim (both 'A' from 'ABCABCA') from dual
6. Select trim (both 'a' from (select lower('ABCABCA') from dual))from dual
7. Select trim (tailing 'a' from (select lower('ABCABCA') from dual))from dual
8. Select trim (leading 'a' from (select lower('ABCABCA') from dual))from dual
9. Select replace ('bababa','abab','?') from dual
10. Select instr ('abcdabcdabcdabcd','ab', -5) from dual
11. Select instr ('abcdabcdabcdabcd','ab',7) from dual
12. Select instr ('abcdabcdabcdabcd','ab',-1, 3) from dual
13. Select substr ('abcdabcdabcdabcd',-2,5) from dual
14. Select substr ('abcdabcdabcdabcd',-2) from dual
15. Select trim (leading 'a' from 'bababa') from dual
16. Select trim (trailing 'a' from 'bababa') from dual
17. Select trim (both 'a' from 'bababaa') from dual
18. Select trim (leading 'a' from 'aabababaaa') from dual
19. Select trim (leading 'a' from 'aaabababaaa') from dual
20. Select trim (leading 'a' from 'ababab') from dual
21. Select replace ('bababa','a','ba') from dual
22. Select replace ('bababa','aba','xyz') from dual

23. Select replace ('bababa','b','a') from dual
24. Select replace ('bababa','aba','*') from dual
25. Select instr ('abcdabcdabcdabcd','ab') from dual
26. Select instr ('abcdabcdabcdabcd','ab',2) from dual
27. Select instr ('abcdabcdabcdabcd','ab',1,2) from dual
28. Select substr ('abcdabcdabcdabcd',2,3) from dual
29. Select substr ('abcdabcdabcdabcd',7) from dual
30. Select substr ('abcdabcdabcdabcd',-7,3) from dual
31. Select substr ('abcdabcdabcdabcd',-8,4) from dual
32. Select length ('abcdabcdabcdabcd') from dual
33. Select upper ('abcdABC123') from dual
34. Select lower ('abcdABC123') from dual
35. Select initcap ('ab cd ABC a123') from dual

3. Exercise C: Write the SQL commands.

36. Using the three separate words "The" "first" and "project" use one command to produce the following output: **The first project.**
37. Use a command to display the length of the string "The first project"?
38. Use a command to display the position of "i" in "The first project"?
39. Use the string "This is the first project" to produce the following output: **rst.**
40. Use the string "This is the first project" to produce the following output: **the.**
41. Use the string "This is the first project" to produce the following output: **the first.**
42. Using the three separate words "New" and "world" use one command to produce the following output: **New world.**
43. Use the string "New world" to produce the following output: **orld.**
44. Use a command to display the length of the string "New world"?
45. Use a command to display the position of "e" in "New world"
46. Use the string "New world" to produce the following output: ******* New world &&**
47. Use the string "New world" to produce the following output: **New@@@world"**
48. Use the string "New world" to produce the following output: **This is the New world.**
49. Use the string "New world" to produce the following output: **New worl**
50. Use the string "This is the first project" to produce the following output:
This@@is@@the@@ first@@project

- 51. Starting with the string "project", pad the string to produce: **projectaaa**.
- 52. Starting with the string "project", display **roject**. (use function SUBSTR)
- 53. Starting with the string "aacbbraa", display **cbbraa**. (use function TRIM)
- 54. Starting with the string "aacbbraa", display **cbbr**. (use function TRIM)

4. Exercise D: For the following tasks use the table of EMPLOYEES:

- 55. Display the last_name and the first_name in uppercase.
- 56. Display the job_id in lowercase.
- 57. Display the first character of the first name concatenated to the last_name and the manager_id in a new column "Information".
- 58. Display the first_name in uppercase from employees hired after 01.01.1999.
